STAT

MEMORANDUM FOR: [REDACTED] Plans & Programs Staff, NFAC  
FROM : Office of Imagery Analysis  
SUBJECT : Response to Questions from RMS

1. This memo is a follow-up to our telephone response of 24 and 26 September on your questions from RMS with regard to the FY81 budget hearings.

STAT

2. Number of analysts working on non-communist areas. We have determined that [REDACTED] are devoted to working non-communist areas of the world. These analysts are working on nuclear proliferation, missile systems, economic resources, ground forces, and collection/operations support for the DDO and DDS&T.

STAT

3. Number of analysts working on three treaties: ASAT; CTB; and ABM. We do very little work directly related to these treaties--not even enough to be accountable. At the very most, it would not be more than [REDACTED]
